Luigi Campagnola

FRONT-END WEB DEVELOPER

PROFILE

I'm a self-taught web developer who is looking to create impressive and scalable websites and applications. I'm currently developing personal projects and learning new things each day. I like to work with teams that are great at communication and provide new ideas to make faster, cleaner, and readable code.

WORK EXPERIENCE

● Web Developer

FREELANCE   2019-2021

Creating scalable websites using HTML, CSS, Javascript, and React. as a Front-End Developer, I know how to add APIs and how to use libraries like Bootstrap and Tachyons to create dynamic and responsive projects.

● Sales Remote Customer Representative

SCALABLE COMMERCE   2020-2021

Currently, working for Scalable Commerce a company based in Santa Barbara, California as a remote customer sales representative agent. We thrive on customer satisfaction.

● Content Quality Editor and Manager

QUORA - PARTNERHERO   2015-2018

I worked as a content quality editor for Quora. I used to manage different queues with users' content to make it more readable, and understandable. My job was to improve the user's experience and increase user interaction and the website's traffic.
